Magnificent 7 Outperformance May Not Continue

Wes Crill, PhD

Senior Investment Director and Vice President

Dec 07, 2023

The Magnificent 7 stocks¹ continue to capture the focus of investors as these large growth names have outpaced the bulk of global equities. Their outperformance is notable because eye-popping returns for top stocks tend to occur before they reach the top of the market. Once there, subsequent returns tend to lag the market.

This is a cautionary tale for investors expecting continued outperformance from the Magnificent 7. In fact, rather than seeking additional exposure to these mega cap stocks, investors should ensure their portfolios are broadly diversified to capture the returns of whatever companies ascend to the top in the future.
